Canoe Kayak Canada (CKC) is carefully following the evolution of the coronavirus on the global and domestic level and how it may impact obtaining quota spots for the 2020 Tokyo Olympic Games and/or domestic nomination of athletes for the 2020 Tokyo Olympic Games. These exceptional and unforeseen circumstances related to the impact of the coronavirus, has already impacted our published Internal Nomination Procedures as written. The cancellation of our scheduled Olympic and Paralympic Team Trials scheduled for April 16-19, 2020 in Gainesville, Georgia, USA as well as possible postponements and / or the cancellation of Olympic Qualification competitions will require this Internal Nomination Procedure to be modified. Any modifications will be made promptly and as often as required following developments that directly impact the Internal Nomination Procedure. In such circumstances, any modifications will be communicated to all affected individuals as soon as possible.

Further, situations may arise that do not allow this Internal Nomination Procedure to be modified or applied as written due to time constraints or other exceptional and unforeseen circumstances. In such situations, any decision, including nomination decisions, will be made by the individual(s) with decision-making authority, as stated in this Internal Nomination Procedure, in consultation with the relevant individual(s) or committee(s) (as applicable), and in accordance with the stated performance objectives and selection philosophy and approach as stated herein. Should it be necessary to make any decision in this manner, CKC will communicate with all affected individuals as soon as possible.

**F. Authority for Selection and at Games Decisions**

1. The CTO is responsible for the implementation of the procedures and criteria in this document.
2. The High Performance Committee (HPC) is responsible for ensuring these criteria are in alignment with the overarching purposes noted in the selection criteria, along with any CKC-SRD and COC policies.
3. The CKC-SRD, in collaboration with the COC may produce an addendum to the INP to clarify the terms of the INP or to address other issues which may have been overlooked initially or have unexpectedly arisen. However, only in the event that both the COC and the CKC-SRD agree on a change will any change be made to the INP. All changes must be agreed to in writing by both the CKC-SRD and the COC to be in effect. CKC-SRD will inform athletes of any changes made to the INP.
4. In making nominations to the COC for selection to the Tokyo 2020 Olympic Games Team the CTO will have the final selection authority for CKC-SRD.
5. After the submission of athletes to the COC on or before **July 1, 2020** for inclusion on of the 2020 Olympic Team the decision-making authority will reside with the CTO or his designate. This includes entries, representation, and all matters pertaining to the CKC-SRD team representing Canada at the Tokyo 2020 Olympic Games.

## **G. Exceptional Circumstances**

1. These criteria are intended to apply where fair racing conditions exist, and specifically, where no athletes are prevented from racing because of exceptional circumstances. Situations may arise where exceptional circumstances beyond CKC-SRD's control do not allow racing or team/crew selection to take place in a fair manner or in the best interests of the priorities and general principles for selection as indicated in these criteria; or do not allow the procedure for nomination as described in this document to be applied. Exceptional Circumstances only apply to situations that occur in advance of or during the relevant element of the selection process.

1.1 An example could include lost equipment by an airline enroute to a selection competition.

2. In the event of such exceptional circumstances the CTO will, where possible, consult with the NDC and the HPC to determine if the circumstances justify racing or selection should take place in an alternative manner.

## **H. Athlete Injury or Illness**

1. The basic philosophy for selecting an athlete by granting an injury or illness request is that, all things being equal, the athlete nominated has clearly demonstrated superior performances in previous competition to other athletes being considered for an Olympic Team nomination.

2. If, because of physical or psychological injury or illness an athlete is unable to meet any of the requirements in this selection procedure, that athlete may still be considered for the *2019 Senior World Championships, Continental Olympic Qualifier, World Cup Competition* and the *Olympic Games* if he/she advises the CTO in writing of such illness or injury and provides a medical certificate of diagnosis of the injury or illness along with a prognosis for recovery.

3. The HPC must approve any request to forego the relevant requirement in this selection procedure.

4. This clause does not apply to any assessment of the athlete either in training or competition prior to notice of the injury or illness.
5. An injury or illness request is considered as the last means by which an athlete can earn selection and is intended to provide for exceptional circumstances outside the normal selection criteria rather than being part of the normal means by which an athlete can earn selection.

## **I. Athlete Replacement Policy**

1. All potential replacement athletes must be submitted along with our Olympic Team nominations to the COC by **July 1, 2020** to be registered as replacement athletes.
2. Where an athlete who has been nominated to the COC is unable to participate due to a physical or psychological injury or illness and this injury or illness occurs after the submission of nominations to the COC on **July 1, 2020** and before the Olympic Games Canoe Sprint Technical Meeting, a replacement athlete if required, will be nominated from the replacement list to the COC for membership on the *Tokyo 2020 Olympic Games* according to the following criteria:
  - 2.1. For all events, the CTO in consultation with the NDC will identify a replacement list at OTT and will nominate the athlete who in their expert opinion will ensure the greatest performance potential at the Olympic Games is realized. In addition to the factors identified in the *Performance Assessment* defined in section B above, consideration will also be given to the nature of the position in the crew. For example, the seat position in the K4 or the side the athlete paddles on in the C-2.
  - 2.2 The HPC must approve all replacement athletes nominated to the COC.

## **J. Entries**

Final entries at the *Olympic Games Technical Meeting* will be approved by the CTO in consultation with the NDC.

## **K. Appeals**

Nominations to the COC under these selection criteria to the Tokyo 2020 Olympic Games Team may be appealed under the Appeal Policy of CKC-SRD. Appeals are restricted to those Athletes who have fulfilled the eligibility requirements noted above. This policy can be found at

<https://canoekayak.ca/>

If both parties agree, the CKC-SRD Appeal Policy may be by-passed, and the matter brought immediately before the Sport Dispute Resolution Centre of Canada (SDRCC) who will then manage the process.

## **PART 2 INTERNAL NOMINATION PROCEDURES – TOKYO 2020 OLYMPIC GAMES**

### **A. Purpose**

The purpose of Part 2 is to describe the specific procedures and criteria that will be used by CKC-SRD to nominate Crews to the COC that will compete at the *Tokyo 2020 Olympic Games Team*.

### **B. General Principles for Selection**

1. All athletes must qualify for a nomination to the COC for inclusion on the 2020 Olympic Team on the basis of performance(s) in an Olympic event.
2. An underlying principle is that all crews are required to achieve two wins or the *highest position of finish* two times whichever is applicable. Please see Section C for details.
3. An athlete / crew can obtain a nomination to the COC for inclusion on the 2020 Olympic Team through one of the following methods (see Section C for details):
  - 3.1 Global Qualification - 2019 Canoe Sprint World Championships Qualifiers – Nomination Process for *Podium Crews*
  - 3.2 Global Qualification - 2019 Canoe Sprint World Championship Qualifiers – Nomination Process for Non-Podium Crews
  - 3.3 2020 Continental Qualification Nomination Process
  - 3.4 2020 Global Qualification – ICF Canoe Sprint World Cup 2 Criteria Nomination Process
  - 3.5 Allocation of Unused Quotas allocated to the NOC by the ICF

4. The CTO in consultation with the NDC and the crews involved will determine the time and date of any race-off required in Section C below. Where the parties cannot agree the CTO has the final authority to determine the time and date of the race-off.
  
5. Unless additional *Performance Assessment* is required as indicated in the criteria below (for example: additional quotas become available after this date), it is the intent to complete the CKC-SRD selection process on or before **June 12th, 2020**.

## **C. Specific Selection Criteria**

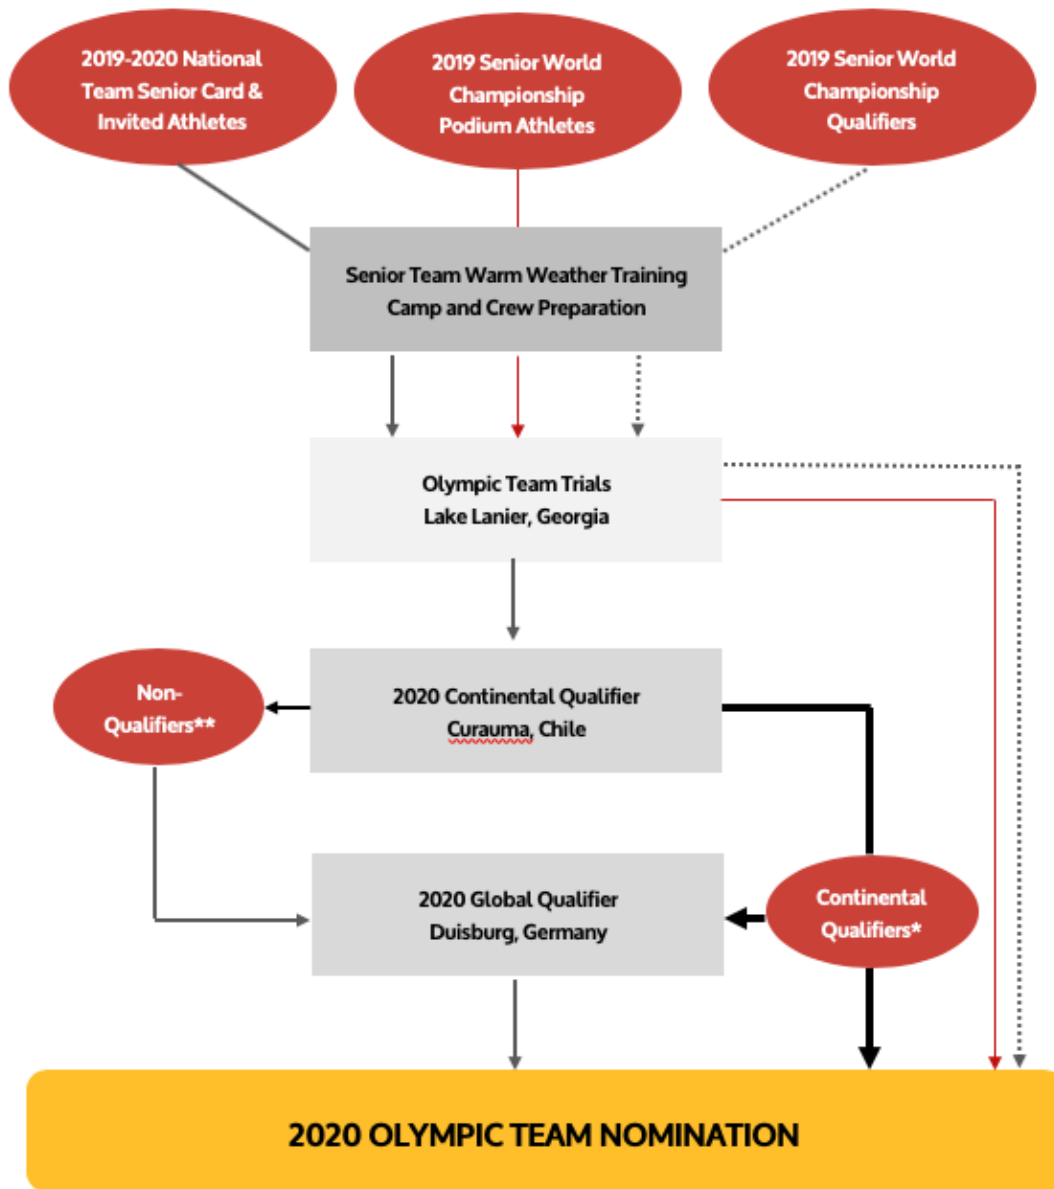

### **1. INTRODUCTION**

The CTO in consultation with the NDC, will submit to the HPC those athletes that in their opinion should be nominated. The HPC shall ensure that such nominations adhere to the procedures and criteria contained within Part 2 of this selection document. The approval of all competition entries is the responsibility of the CTO.

The primary objective of the National Team Program is the development of athletes to represent Canada at the highest level at the Olympic Games. The Criteria for selection to the 2020 Olympic Team is the culmination of an overall strategy to field the strongest possible team. Athletes who are nominated will be training to win. The performance they demonstrate in training and competition should reflect their progression toward podium results at the Olympic Games.

### **2. OVERVIEW**

To assist athletes and coaches, an overview of the selection process is provided below. This chart is an outline of the various paths toward Olympic nomination and is only a guideline, one should review thoroughly the criteria that are contained within this document:

\* Could be a nomination or we may have Insufficient quotas and therefore CKC must decide which athletes will be nominated based on a performance assessment.

\*\* Nomination will be based on a performance assessment that demonstrates the potential to win at the 2020 Global Qualifier in Duisburg, Germany. (Note: K1 and C1 only)

### **3. GLOBAL QUALIFICATION – 2019 CANOE SPRINT WORLD CHAMPIONSHIPS**

The 2019 Senior World Championships is the first opportunity for CKC-SRD-SRD to qualify **boats and athlete quota positions** for the 2020 Olympic Games. Achieving an athlete quota position at the 2019 Senior World Championships will not in and of itself warrant a nomination to the COC for inclusion on the 2020 Olympic Team. Athletes must satisfy criteria outlined in section 3.1 or 3.2 below and meet the eligibility requirements outlined in Part 1 of this document.

Please refer to the *[Olympic Qualification System of the International Canoe Federation](#)* which describes the procedures and criteria that crews must achieve in order to earn a quota position for the 2020 Olympic Games.

#### **And**

The procedures and criteria for nomination to the 2019 Senior World Championship Team posted on the CKC-SRD website February 2019.

<https://canoekayak.ca/wp-content/uploads/2019/02/2019-Senior-World-Criteria-Supplement-2019-Final-Feb-5-EN-3.pdf>

#### **3.1 Nomination Process for 2019 Podium Crews**

- 3.1.1 A 2019 Podium crew will be assigned a win toward a nomination to the 2020 Olympic Team on the basis of their podium result at the 2019 Senior World Championships.

- 3.1.2 A 2019 *Podium crew* that wins the podium event in Final 1 at OTT, April 16-19, 2020, Gainesville, Georgia, thus achieving two wins, will be nominated to the COC for inclusion on the 2020 Olympic Team. Note: The crew must be the same in its entirety.
- 3.1.3 A 2019 *Podium Crew* that competes at OTT, April 16-19, 2020, Gainesville, Georgia and **does not win Final 1**, but they **win Final 2** at OTT will be nominated to the COC for inclusion on the 2020 Olympic Team. Note: The crew must be the same in its entirety.
- 3.1.4 If the 2019 *Podium Crew* is not the winner of Final 1 or Final 2 at OTT and there are two different winners, the 2019 *Podium crew* will be included in the race-off.
- 3.1.5 If the same crew wins Final 1 and Final 2 and it is not the 2019 *podium crew*, then the 2019 *Podium Crew* will no longer be included in the selection process for this event.
- 3.1.6 If the 2019 *Podium Crew* wishes to compete in other events for which CKC-SRD has qualified then they must satisfy the relevant selection criteria for that event.
- 3.1.7 Where CKC-SRD has not achieved sufficient quotas in a specific discipline (based on quotas achieved and maximum quotas per nation as per the ICF qualification system) to nominate all crews that satisfy 2019 *Podium Crew* selection criteria at the conclusion of OTT (This includes any race-offs), the nomination in the affected events will be determined on the basis of a *Performance Assessment*.

### **3.2 Nomination process based on Athlete Quotas achieved at the Global Qualifier - 2019 World Canoe Sprint Championships (non-podium).**

- 3.2.1 If the same crew wins Final 1 and Final 2 at OTT in an event that CKC-SRD qualified at the Global Qualifier – 2019 Canoe Sprint World Championships then they will be nominated to the COC for inclusion on the 2020 Olympic Team.

3.2.2 If the crew that wins Final 1 at OTT does not win Final 2 then a race-off will be held between the winner of Final 1 and the winner of Final 2.

3.2.2.1 The winner of this race-off will be nominated to the COC for inclusion on the 2020 Olympic Team.

3.2.3 There will be Olympic C1/K1, C2/K2 and K-4 races at OTT.

3.2.4 All National Team crews that race K2/C2 or K4 at OTT are at the discretion of the NDC and require the approval of the CTO.

3.2.4.1 National Team Senior Card & Invited athletes must take part in crew boat practices as directed by the NDC and approved by the CTO.

3.2.4.2 Events at OTT are open to all competitors.

3.2.5 Where CKC-SRD has not achieved sufficient quotas in a specific discipline (based on quotas achieved and maximum quotas per nation as per the ICF qualification system) to nominate all crews that meet selection criteria at the conclusion of OTT (This includes any race-offs), the nomination in the affected events will be determined on the basis of a *Performance Assessment*.

#### **4. NOMINATION BASED ON ATHLETE QUOTAS ACHIEVED AT THE 2020 CONTINENTAL OLYMPIC QUALIFIER**

**The 2020 Continental Olympic Qualifier** is the second opportunity for CKC-SRD to qualify athlete quota positions for the Tokyo 2020 Olympic Games. Please refer to the *Olympic Qualification System of the International Canoe Federation* which describes the procedures and criteria that Crews must achieve in order to earn a quota position for the 2020 Olympic Games.

[https://www.canoeicf.com/sites/default/files/2018-10\\_-\\_tokyo\\_2020\\_-\\_qualification\\_system\\_-\\_canoe\\_sprint\\_-\\_final.pdf](https://www.canoeicf.com/sites/default/files/2018-10_-_tokyo_2020_-_qualification_system_-_canoe_sprint_-_final.pdf)

- 4.1 There are several key elements of this qualification criteria that impacts on CKC-SRD's ability to nominate athletes to compete at the *2020 Continental Olympic Qualifier*. They are as follows:
- 4.1.1 Only K1/C1 and K2/C2 Olympic events are on the *2020 Continental Olympic Qualifier* program.
  - 4.1.2 Boats and athletes that have previously qualified or earned an athlete quota cannot compete.
  - 4.1.3 The maximum number of athlete quotas a NOC can earn through the *2020 Continental Olympic Qualifier* in the K1/C1 events is (1).
  - 4.1.4 The maximum number of athlete quotas a NOC can earn through the *2020 Continental Olympic Qualifier* overall per discipline is (2).
- 4.2 CKC-SRD will be guided by the following principles in making its nominations to the COC for inclusion on the 2020 Olympic Team based on results at the *2020 Continental Olympic Qualifier*:
- 4.2.1 CKC-SRD will accept the maximum number of quotas allocated to the CKC-SRD at the *2020 Continental Olympic Qualifier* subject to Sections 4.2.1.1, 4.3 and 4.4 below.
    - 4.2.1.1 Notwithstanding the aforementioned, CKC-SRD may return a quota or quotas where the entries for Canada do not permit the crew to start in an event at the Olympic Games as required by the ICF Qualification System (B.4.2).

- 4.2.2 The final selection of boats and quotas by the CKC-SRD may require the athletes nominated to start in another distance or event at the Games as required by the ICF Qualification System.
- 4.2.3 CKC -SRD is limited to 2 (two) quotas per discipline at the Continental Qualification regardless of the number of events CKC-SRD may win. Where the number of crews that satisfy the ICF Qualification criteria to earn the NOC athlete quotas at the *2020 Continental Qualifier* exceeds 2 (two), CKC-SRD must make a decision between one or more crews to determine the actual nomination of athletes to the COC for inclusion on the 2020 Olympic Team (see section 4.4 for details). Under these circumstances, WC#2 will be used as the *Performance Assessment* to determine nominations to the COC for inclusion on the 2020 Olympic Team.
- 4.2.4 It may be that the crew(s) who win at OTT are ineligible to compete at the *2020 Continental Qualifier* as stipulated by the ICF Qualification System (B.4.2). In such circumstances, CKC will determine the crew that will compete at the *2020 Continental Olympic Qualifier* according to the criteria listed in Section 4.3 below.
- 4.2.5 Where athletes who have already earned an athlete quota at the 2019 Canoe Sprint World Championship win Final 1 in a non-qualified event at OTT, they will be awarded a win and will be named to the World Cup Team as they are ineligible to compete at the *2020 Continental Olympic Qualifier*.
- 4.2.6 Only crews that are entirely composed of athletes that have not earned athlete quotas may compete in non-qualified events in Final 2 at OTT.
- 4.2.7 The crew or crews that demonstrate the greatest potential to earn CKC-SRD athlete quotas will be nominated to compete at the *2020 Continental Olympic Qualifier*.

**4.3 Selection requirements for nomination to the 2020 Continental Qualifier (Subject to 4.1 and 4.2 above):**

4.3.1 K1/C1 (non-qualified events)

4.3.1.1 If the same K1/C1 (athlete who has not earned an athlete quota through their results at the *Global Qualifier - 2019 World Championships*) achieves the highest position of finish in Final 1 and Final 2 at OTT, they will be nominated to compete at the *2020 Continental Olympic Qualifier*.

4.3.1.1.1 If the same K1/C1 (athlete who has not earned an athlete quota through their results at the *Global Qualifier - 2019 World Championships*) does not achieve the highest position of finish in Final 1 and Final 2 at OTT, then a race-off will be held between the crew with the highest position of finish of Final 1 and the crew with the highest position of finish of Final 2 (please see Section 4.3.3 below). The winner of the race-off will be nominated to compete at the *2020 Continental Olympic Qualifier*.

4.3.2 K2/C2 (non-qualified events)

4.3.2.1 If the same K2/C2 (where both athletes have not earned an athlete quota through their results at the *Global Qualifier - 2019 World Championships*) achieves the highest position of finish in Finals 1 and Final 2 at OTT, they will be nominated to the *2020 Continental Olympic Qualifier* (subject to 4.3.2.2 below) .

4.3.2.1.1 If the same crew does not achieve the highest position of finish in Final 1 and Final 2 at OTT, then a race-off will be held between the crew with the highest position of finish of Final 1 and the crew with the highest position of finish of Final 2. The winner of the race-off

will be nominated to compete at the *2020 Continental Olympic Qualifier* (Please see Section 4.3.3 below).

4.3.2.2 It may be that the crews in Final 2 at OTT will not be the same crews that competed in Final 1. Such a scenario could arise if the CTO/HC, in consultation with the NDC, decides that a combined crew composed of a non-qualified athlete in the winning crew from Final 1 and another non-qualified athlete will race in Final 2 because the newly composed crew may have a better chance of qualifying quota places at the *2020 Continental Olympic Qualifier* for Canada.

4.3.2.2.1 In this scenario, the winner of Final 2 will be nominated to the *2020 Continental Olympic Qualifier*.

4.3.3 It is intended that all race-offs will take place at OTT. The CTO may, however, in consultation with the NDC and the crews involved, determine an alternate time and date of any race-off required. Where the parties cannot agree, the CTO has the final authority to determine the time and date of the race-off.

**4.4 Selection requirements for nomination to the COC for inclusion on the 2020 Olympic Team based on results at the 2020 Continental Olympic Qualifier (Subject to 4.1 and 4.2 above):**

**4.4.1 Applicable to all Disciplines**

4.4.1.1 If the same K2/C2 that wins Final 1 and Final 2 at OTT also wins their respective K2/C2 event at the *2020 Continental Qualifier* and CKC-SRD does not win any of the K1/C1 events in their respective discipline at the *2020 Continental Olympic Qualifier*, a *Performance Assessment* is not required. The

K2/C2 will be nominated to the COC for inclusion on the 2020 Olympic Team.

4.4.1.2 Where the K2/C2 crew that wins Final 1 at OTT contains an athlete who has earned an athlete quota (See 4.3 above), then the K2/C2 crew that wins Final 2 at OTT will compete at the *2020 Continental Olympic Qualifier*.

4.4.1.2.1 If this crew wins at the *2020 Continental Olympic Qualifier* and CKC-SRD does not win any of the K1/C1 events at the *2020 Continental Qualifier* in their respective discipline, then the crew that was second (2<sup>nd</sup>) in Final 1 at OTT will be nominated to compete at the Duisburg World Cup.

4.4.1.2.2 CKC-SRD will conduct a *Performance Assessment* at the Duisburg World Cup between the crew that won Final 1 at OTT and the crew that finished 2<sup>nd</sup> at OTT. The crew with the highest position of finish at WC#2 will be nominated to the COC for inclusion on the 2020 Olympic Team.

#### **4.4.2 Kayak Scenarios**

4.4.2.1.1 CKC-SRD will conduct a *Performance Assessment* to select the crew with the greatest potential to be in the A Final at the 2020 Olympic Games.

4.4.2.1.2 The *Performance Assessment* will be based on results at WC#2.

4.4.2.1.3 Note: CKC-SRD will be required to start in the Men K1 1000 or Women K1 500 at the Olympic Games.

4.4.2.2 This scenario applies to both Men and Women Kayak where CKC-SRD wins one or both of the Men K1 1000/ Men K1 200 and / or Women K1 200 / 500 and also wins the Men K2 1000 and / or Women K2 500 at the 2020 *Continental Olympic Qualifier*:

4.4.2.2.1 CKC-SRD will conduct a *Performance Assessment* to select the crew or crews with the greatest potential to be in the A Final at the Olympic Games.

4.4.2.2.2 The *Performance Assessment* will be based on results at WC#2.

4.4.2.2.3 If the Men K2 1000 and / or the Women K2 500 is determined to have the best overall performance at WC#2 they will be nominated to the 2020 Olympic Team.

4.4.2.2.4 If the Men K1 1000 and the Men K1 200 are ranked first and second on the *Performance Assessment* of results at WC#2, they will be nominated to the Olympic Team, but must also start in the K2 event at the Olympic Games. Similarly, if the Women K1 500 and the Women K1 200 are ranked first and second on the *Performance Assessment* of results at WC#2, they will be nominated to the Olympic Team, but must also start in the K2 event at the Olympic Games.

4.4.2.2.5 If the Men K2 1000 and / or the Women K2 500 crew is ranked second based on the *Performance Assessment* of results obtained at WC#2 but the K1 crew that achieves the highest position of finish at WC#2 is also a member of the Men K2 1000 and / or

Women K2 500 crew, then the K1 crew and the K2 crew will be nominated to the Olympic Team;

**NOTE:** In the scenario described immediately above, if the K1 crew is not in the K2 crew, then CKC-SRD-SRD will exceed the maximum quotas for the Olympic Games and the K2 will not be nominated. Instead, both K1 crews (men and women) will be nominated to the Olympic Team and CKC-SRD must start in the K2 event at the Olympic Games in this scenario.

4.4.3.3.1 CKC-SRD will conduct a *Performance Assessment* to select the crew with the greatest potential to be in the A Final at the 2020 Olympic Games.

4.4.3.3.2 The *Performance Assessment* will be based on results at WC#2.

- 4.4.3.3.3 If the C1 crew that achieves the highest position of finish is also a member of the C2 crew, then the C1 crew and the C2 crew will be nominated to the COC for inclusion on the 2020 Olympic Team.
- 4.4.3.3.4 If the C1 crew is not in the C2 crew then CKC-SRD will exceed the maximum quotas.
  - 4.4.3.3.4.1 If the C2 crew is determined to have the best overall performance at WC#2 they will be nominated to the COC for inclusion on the 2020 Olympic Team.
